

21Feb2019

From Frank Dillman, 2273 C. R. 54 W., Notasulga, AL 36866, [frank@frankdillman.com](mailto:frank@frankdillman.com)

Representative Warren,

Please support Macon County Commission's resolution granting the residents of OUR county to vote on the county's request for an added 4 cent Fuel tax and the new Ambulance Tax. I also thank you for this town hall meeting. Furthermore, my genuine thanks to you and your husband for your presence and **contributions** to the District 4 tax public hearing earlier this month.

I encourage you to follow through on your intentions of gaming, on-line gambling, and lottery to fund maintenance and repair of our Roads and Bridges instead of the state's appetite of 12 cents per gallon. Combined with the potential additional 4 cents per gallon of fuel in OUR county, citizens could have an increase of an artificial 16 cents per gallon of fuel OR **8 times** as we are paying now in Macon County. This enormous increase will have a **devastating impact** on everyone who drives to work, shopping, recreation, dining out, and everybody else who requires fuel to get somewhere.

I live in the county, yet within Notasulga's fire/police jurisdiction. I request you to support SB23 and hopefully its House companion bill. According to sponsor Senator Chris Elliot, merely three states authorize a police jurisdiction beyond their corporate limits and his bill would return police jurisdictions to within the city limits. **Regulation without Representation.**
